Abstract Robbe van Bogaert

Robbe van Bogaert will bring a story about investing in the next generation. Robbe has put a lot of effort in supporting young people as organizers in the nightlife scene and gave a lot of advice to the policy makers and the city council. He brings a story about the government's investment in the youngsters of the future and how it fades in the booming nightlife and the event sector in Antwerp. He will also tell you about the secrets Antwerp has to offer and why international press calls Antwerp the hidden diamond of nightlife.
